To Whom It May Concern,

The Crowne Plaza Hotel is a proud user of Lapaco quality doilies in both our dining rooms as well as our guest rooms. The doilies help to enhance the décor in our guest rooms as well as the food presentation in our restaurant.

The doilies provide a buffer between plates and saucers hence reducing the noise level in our dining rooms. This provides our guests with a pleasant and relaxed atmosphere when sitting down for a meal.

Our busy waiter staff also finds the plates do not slide around so much when serving several meals at a time to our patrons.

In my opinion the doilies are a very cost effective way to protect our investment, and provide our guests with a quiet and elegant ambiance when dining at our restaurant.
